# GRAND CANYON EDUCATION, INC. REPORTS FOURTH QUARTER 2022 RESULTS

**PHOENIX, AZ., February 16, 2023**—<u>Grand Canyon Education, Inc.</u> (NASDAQ: LOPE), ("GCE" or the "Company"), is a publicly traded education services company that currently provides services to 27 university partners. GCE provides a full array of support services in the post-secondary education sector and has developed significant technological solutions, infrastructure and operational processes to provide superior services in these areas on a large scale. GCE today announced financial results for the quarter ended December 31, 2022.

#### **Grand Canyon Education, Inc. Reports Fourth Quarter 2022 Results**

For the three months ended December 31, 2022:

- Service revenue was \$258.7 million for the fourth quarter of 2022, an increase of \$7.3 million, or 2.9%, as compared to service revenue of \$251.4 million for the fourth quarter of 2021. The increase year over year in service revenue was primarily due to an increase in GCU traditional campus enrollments and revenue per student year over year partially offset by a decrease in online enrollments at GCU of 1.6% and to a lesser extent, students in a university partner's Occupational Therapy Assistants ("OTA") program in which enrollment declined 11.3% between December 31, 2021 and 2022. Additionally, GCU's traditional campus Fall semester moved forward one day compared to the third quarter of 2021, which decreased service revenues earned in the fourth quarter by \$1.5 million. The increase in revenue per student between years is primarily due to the service revenue impact of the growth in the GCU traditional campus enrollments between years which has a higher revenue per student due to room, board and other ancillary revenues and the higher revenue per student at off-campus classroom and laboratory sites. Service revenue per student for Accelerated Bachelor of Science in Nursing ("ABSN") program students at off-campus classroom and laboratory sites generates a significantly higher revenue per student than we earn under our agreement with GCU, as these agreements generally provide us with a higher revenue share percentage, the partners have higher tuition rates than GCU and the majority of their students take more credits on average per semester.
- Partner enrollments totaled 112,955 at December 31, 2022 as compared to 112,554 at December 31, 2021. University partner enrollments at our off-campus classroom and laboratory sites were 4,636, a decrease of 1.0% over enrollments at December 31, 2021, which includes 320 and 269 GCU students at December 31, 2022 and 2021, respectively. This growth rate has slowed over the past year primarily due to the 11.3% decline in OTA students as the university partner stopped admitting new students for most of 2021 due to clinical placement backlog. Year over year ABSN students decreased 0.3% at December 31, 2022. None of our ABSN partners have stopped admitting new students due to the clinical faculty challenges that began during the pandemic, however some locations that were scheduled to open in 2021 and 2022 have been pushed back and some existing partners have reduced incoming cohort sizes which has slowed the growth. In addition, in a joint decision between us and one of our university partners, two ABSN off-campus classroom and laboratory sites were closed at the beginning of this year to allow the university partner to focus its resources closer to its home location. Excluding the prior year enrollments from locations that have been closed in the past twelve months, ABSN students grew by 3.6% year over year. We did open six new off-campus classroom and laboratory sites in the year ended December 31, 2022 increasing the total number of these sites to 35 at December 31, 2022 and we anticipate opening six to eight more in 2023 which should re-accelerate the ABSN student enrollment growth. Enrollments at GCU increased to 108,639 at December 31, 2022, a slight increase of 0.5% over enrollments at December 31, 2021 primarily due to the increase in ground traditional and ABSN off-campus enrollments partially offset by the decrease in GCU online enrollments between years. Enrollments for GCU ground students were 25,522 at December 31, 2022 up from 23,629 at December 31, 2021 primarily due to a 8.6% increase in traditional ground students between years.
- Operating income for the three months ended December 31, 2022 was \$90.7 million, a decrease of \$11.7 million as compared to \$102.4 million for the same period in 2021. The operating margin for the three months ended December 31, 2022 was 35.1%, compared to 40.7% for the same period in 2021.
- Interest income, net of interest expense, decreased from \$6.5 million in the fourth quarter of 2021 to \$1.3 million in the fourth quarter of 2022 primarily due to the payoff of the Secured Note receivable and the cancellation and repayment of the credit facility, both of which occurred in the fourth quarter of 2021.
- Income tax expense for the three months ended December 31, 2022 was \$21.0 million, a decrease of \$2.8 million, as compared to income tax expense of \$23.8 million for the three months ended December 31, 2021. This decrease was the result of a decrease in our taxable income, partially offset by an increase in our effective tax rate between periods. Our effective tax rate was 22.8% during the fourth quarter of 2022 compared to 21.8% during the fourth quarter of 2021. In the fourth quarter of 2022, the effective tax rate was unfavorably impacted by state income taxes.
- Net income decreased 16.5% to \$71.0 million for the fourth quarter of 2022, compared to \$85.1 million for the same period in 2021. As adjusted net income was \$72.7 million and \$83.7 million for the fourth quarters of 2022 and 2021, respectively.

- Diluted net income per share was \$2.30 and \$2.15 for the fourth quarters of 2022 and 2021, respectively. As adjusted diluted net income per share was \$2.36 and \$2.11 for the fourth quarters of 2022 and 2021, respectively.
- Adjusted EBITDA decreased 6.2% to \$102.2 million for the fourth quarter of 2022, compared to \$109.0 million for the same period in 2021.

#### For the year ended December 31, 2022:

- Service revenue was \$911.3 million for the year ended December 31, 2022, an increase of \$14.7 million, or 1.6%, as compared to service revenue of \$896.6 million for the year ended December 31, 2021. The increase year over year in service revenue was primarily due to an increase in GCU traditional campus enrollments and revenue per student year over year partially offset by a decrease in online enrollments at GCU of 1.6% and to a lesser extent, students in a university partner's OTA program in which enrollment declined 11.3% between December 31, 2021 and 2022. The increase in revenue per student between years is primarily due to the service revenue impact of the growth in the GCU traditional campus enrollments between years which has a higher revenue per student due to room, board and other ancillary revenues and the higher revenue per student at off-campus classroom and laboratory sites. Service revenue per student for ABSN program students at off-campus classroom and laboratory sites generates a significantly higher revenue per student than we earn under our agreement with GCU, as these agreements generally provide us with a higher revenue share percentage, the partners have higher tuition rates than GCU and the majority of their students take more credits on average per semester.
- Operating income for the year ended December 31, 2022 was \$237.5 million, a decrease of \$44.7 million as compared to \$282.2 million for the same period in 2021. The operating margin for the year ended December 31, 2022 was 26.1%, compared to 31.5% for the same period in 2021.
- Interest income, net of interest expense, decreased from \$49.1 million for the year ended December 31, 2021 to \$2.6 million for the year ended December 31, 2022 primarily due to the payoff of the Secured Note receivable and the cancellation and repayment of the credit facility, both of which occurred in the fourth quarter of 2021.
- Income tax expense for the year ended December 31, 2022 was \$55.4 million, a decrease of \$15.5 million, or 21.9%, as compared to income tax expense of \$70.9 million for the year ended December 31, 2021. This decrease was the result of a decrease in our taxable income partially offset by an increase in our effective tax rate between periods. Our effective tax rate was 23.1% during the year ended December 31, 2022 compared to 21.4% during the year ended December 31, 2021. In the year ended December 31, 2021, the effective tax rate was significantly impacted by excess tax benefits of \$4.4 million as a result of exercises of the remaining stock options held by employees prior to their expiration. Excess tax benefits totaled only \$0.1 million in the year ended December 31, 2022. The effective tax rate was favorably impacted by the contributions in lieu of state income taxes of \$5.0 million in July 2022 and 2021. The impact of the contributions in 2022 had a greater impact on the effective tax rate than it did in 2021 due to lower income before taxes.
- Net income decreased 29.1% to \$184.7 million for the year ended December 31, 2022, compared to \$260.3 million for the same period in 2021. As adjusted net income was \$192.1 million and \$263.8 million for the years ended December 31, 2022 and 2021, respectively.
- Diluted net income per share was \$5.73 and \$5.92 for the years ended December 31, 2022 and 2021, respectively. As adjusted diluted net income per share was \$5.96 and \$6.00 for the years ended December 31, 2022 and 2021, respectively.
- Adjusted EBITDA decreased 11.0% to \$291.3 million for the year ended December 31, 2022, compared to \$327.4 million for the same period in 2021.

# **Liquidity and Capital Resources**

Our liquidity position, as measured by cash and cash equivalents and investments decreased by \$419.2 between December 31, 2021 and December 31, 2022, which was largely attributable to share repurchases in accordance with our share repurchase program and capital expenditures during the year ended December 31, 2022 of \$604.2 million and \$35.2 million, respectively, partially offset by cash provided by operating activities of \$220.8 million. Our unrestricted cash and cash equivalents and investments were \$181.7 million and \$600.9 million at December 31, 2022 and 2021, respectively.

## Adjusted EBITDA (Non-GAAP Financial Measure)

Adjusted EBITDA is defined as net income plus interest expense, less interest income and other gain (loss) recognized on investments, plus income tax expense, and plus depreciation and amortization (EBITDA), as adjusted for (i) contributions to private Arizona school tuition organizations in lieu of the payment of state income taxes; (ii) share-based compensation, and (iii) unusual charges or gains, such as litigation and regulatory reserves, impairment charges and asset write-offs, and exit or lease termination costs. We present Adjusted EBITDA because we consider it to be an important supplemental measure of our operating performance. We also make certain compensation decisions based, in part, on our operating performance, as measured by Adjusted EBITDA. All of the adjustments made in our calculation of Adjusted EBITDA are adjustments to items that management does not consider to be reflective of our core operating performance. Management considers our core operating performance to be that which can be affected by our managers in any particular period through their management of the resources that affect our underlying revenue and profit generating operations during that period and does not consider the items for which we make adjustments (as listed above) to be reflective of our core performance.

We believe Adjusted EBITDA allows us to compare our current operating results with corresponding historical periods and with the operational performance of other companies in our industry because it does not give effect to potential differences caused by variations in capital structures (affecting relative interest expense, including the impact of write-offs of deferred financing costs when companies refinance their indebtedness), tax positions (such as the impact on periods or companies of changes in effective tax rates or net operating losses), the book amortization of intangibles (affecting relative amortization expense), and other items that we do not consider reflective of underlying operating performance. We also present Adjusted EBITDA because we believe it is frequently used by securities analysts, investors, and other interested parties as a measure of performance.

In evaluating Adjusted EBITDA, investors should be aware that in the future we may incur expenses similar to the adjustments described above. Our presentation of Adjusted EBITDA should not be construed as an inference that our future results will be unaffected by expenses that are unusual, non-routine, or non-recurring. Adjusted EBITDA has limitations as an analytical tool in that, among other things it does not reflect:

- cash expenditures for capital expenditures or contractual commitments;
- changes in, or cash requirements for, our working capital requirements;
- interest expense, or the cash required to replace assets that are being depreciated or amortized; and
- the impact on our reported results of earnings or charges resulting from the items for which we make adjustments to our EBITDA, as described above and set forth in the table below.

In addition, other companies, including other companies in our industry, may calculate these measures differently than we do, limiting the usefulness of Adjusted EBITDA as a comparative measure. Because of these limitations, Adjusted EBITDA should not be considered as a substitute for net income, operating income, or any other performance measure derived in accordance with and reported under GAAP, or as an alternative to cash flow from operating activities or as a measure of our liquidity. We compensate for these limitations by relying primarily on our GAAP results and only use Adjusted EBITDA as a supplemental performance measure.

The following table provides a reconciliation of net income to Adjusted EBITDA, which is a non-GAAP measure for the periods indicated:

#### Non-GAAP Net Income and Non-GAAP Diluted Income Per Share

The Company believes the presentation of non-GAAP net income and non-GAAP diluted income per share information that excludes amortization of intangible assets, loss on disposal of fixed assets, the reversal of credit loss reserve and the write off of deferred loan costs upon repayment of the credit facility, allows investors to develop a more meaningful understanding of the Company's performance over time. Accordingly, for the three-months and years ended December 31, 2022 and 2021, the table below provides reconciliations of these non-GAAP items to GAAP net income and GAAP diluted income per share, respectively:

	Three Months Ended December 31,				Year Ended December 31,			
	2022 2021 (Unaudited, in thousan				nds (	2022 except per s	hare	2021 data)
GAAP Net income	\$ 7	1,027		85,113		184,675		260,344
Amortization of intangible assets		2,104		2,104		8,419		8,419
Loss on disposal of fixed assets		94		_		1,249		_
Reversal of credit loss reserve		_		(5,000)		_		(5,000)

Reversal of credit loss reserve (4)		-		(0.10)		-		(0.09)
Write off remaining deferred loan costs upon repayment of credit facility (5)		-		0.02		-		0.02
As Adjusted, Non-GAAP Diluted income per share	\$	2.36	\$	2.11	\$	5.96	\$	6.00

<sup>(1)</sup> The income tax effects of adjustments are based on the effective income tax rate applicable to adjusted (non-GAAP) results.

<sup>(2)</sup> The amortization of acquired intangible assets per diluted share is net of an income tax benefit of \$0.02 and \$0.01 for the three months ended December 31, 2022 and 2021, respectively, and net of an income tax benefit of \$0.06 and \$0.04 for the year ended December 31, 2022 and 2021, respectively.

- (3) The loss on disposal of fixed assets per diluted share is net of an income tax benefit of nil for the three months ended December 31, 2022 and net of an income tax benefit of \$0.01 for the year ended December 31, 2022.
- (4) The reversal of credit loss reserve per diluted share is net of an income tax expense of \$0.03 for the three months ended December 31, 2021, and net of an income tax expense of \$0.02 for the year ended December 31, 2021.
- (5) The write off of remaining deferred loan costs upon repayment of the credit facility per diluted share is net of an income tax benefit of \$0.01 for the three months ended December 31, 2021, and net of an income tax benefit of \$0.01 for the year ended December 31, 2021.
